**CONTENTS: SEC MEETING FILES - 1985**

JANUARY 15, 1985

SEC Hearing - Las Vegas

II. Proposed amendment to NAC 445.934, Air Pollution, by adding to the list of exempt areas Boulder City, Nevada zip code number 89005. The amendments would eliminate the requirement for the owner of a light-duty motor vehicle based in Boulder City from having an inspection for emission before vehicle registration or re-registration.

III. Proposed amendments to NAC 445, Water Pollution, for revisions to the beneficial uses for the following control points:

A. Colorado River: Gage Station located half mile downstream from Davis Dam (NAC 445.13495)

B. Virgin River at Mesquite (NAC 445.1344)

C. Virgin River at Littlefield (NAC 445.13441)

D. Virgin River at Riverside (NAC 445.13442)

E. Muddy River at Glendale Bridge (NAC 445.1381)

F. Muddy River at Overton (NAC 445.1382)

G. Meadow Valley Wash (NAC 445.1385)

H. Chiatovich Creek (Esmeralda County) (NAC 445.13436)

I. Indian Creek (NAC 445.13437)

J. Leidy Creek (NAC 445.13438)

K. Beaver Dam Wash (NAC 445.13443)

L. Snake Creek (NAC 445.13445)

IV: Proposed revisions to water quality standards for the control points identified in III.A through III.L above to revise the water quality standards, including limits on heavy metals and pesticides (NAC 445.1391), for the above control points. Standards are proposed to protect the beneficial uses and, where appropriate, requirements to maintain existing higher quality are also proposed.

V. Proposed addition of a control point at the inlet to Lake Mohave. A new control point is proposed at the inlet to Lake Mohave on the Colorado River, including beneficial uses and water quality standards.

VI. Water quality standards for salinity, Colorado River System - 1984 Review. The numeric flow weighted salinity criteria for the following main stem stations are proposed to remain unchanged:

Below Hoover Dam

Below Parker Dam

Imperial Dam

VII. Minimum quality criteria applicable to interstate waters (NAC 445.1395). The proposal revises the narrative criteria for interstate waters.

SEC HEARING - Yerington

II: Approval as permanent amendments NAC 445, Water Pollution as adopted as temporary regulations items 3 through 7 at the January 15, 1985 SEC Hearing.

NAC 445, Water Pollution, for revisions to the beneficial uses for the following control points:

A: Colorado River: Gage Station located half mile downstream from Davis Dam (NAC 445.13495)

B. Virgin River at Mesquite (NAC 445.1344)

C. Virgin River at Littlefield (NAC 445.13441)

D. Virgin River at Riverside (NAC 445.13442)

E. Muddy River at Glendale Bridge (NAC 445.1381)

F. Muddy River at Overton (NAC 445.1382)

G. Meadow Valley Wash (NAC 445.1385)

H. Chiatovich Creek (Esmeralda County) (NAC 445.13436)

I. Indian Creek (NAC 445.13437)

J. Leidy Creek (NAC 445.13438)

K. Beaver Dam Wash (NAC 445.13443)

L. Snake Creek (NAC 445.13445)

Revisions to water quality standards for the control points identified in III.A through III.L above to revise the water quality standards, including limits on heavy metals and pesticides (NAC 445.1391), for the above control points. Standards are proposed to protect the beneficial uses and, where appropriate, requirements to maintain existing higher quality are also proposed.

Addition of a control point at the inlet to Lake Mohave. A new control point is proposed at the inlet to Lake Mohave on the Colorado River, including beneficial uses and water quality standards.

Water quality standards for salinity, Colorado River System - 1984 Review. The numeric flow weighted salinity criteria for the following main stem stations are proposed to remain unchanged:

Below Hoover Dam

Below Parker Dam

Imperial Dam

Minimum quality criteria applicable to interstate waters (NAC 445.1395). The proposal revises the narrative criteria for interstate waters.

III. Amendments to Hazardous Waste Management Regulations, NAC 444.8500 to 444.9335 to change adoption date of Federal Regulations, by reference.

Proposed amendments to NAC 445, Water Pollution, for revisions to beneficial uses for the following control points:

1. West Walker River at the state line (NAC 445.13425)
2. Topaz Lake (NAC 445.13426)
3. West Walker River near Wellington (NAC 445.13427)
4. West Walker River above confluence with the East Walker (Nurdyke Road (NAC 445.13428)
5. Sweetwater Creek (NAC 445.1343)
6. East Walker River at state line (NAC 445.13431)
7. East Walker River south of Yerington above confluence with West Walker River (Nurdyke Road (NAC 445.13432)
8. Walker River at J.J. Ranch (NAC 445.13433)
9. Desert Creek (NAC 445.13435)

V. Proposed addition of a control point at the inlet to Walker Lake including beneficial uses and water quality standards for the reach from Walker Lake to Weber Reservoir.

VI. Proposed revisions to Water Quality Standards for the control points identified in IV.1 through IV.9. to revise the water quality standards, including limits on heavy metals and pesticides (NAC 445.1391 and 445.13706) for the above control points.

VII. Revision to NAC 445.124 to conform with proposals contained in items IV, V and VI.

AUGUST 28, 1985  
AUGUST 29, 1985

SEC Hearing - Reno  
SEC Hearing - Las Vegas

- II. Proposed Amendments to NAC 445.851 through 445.945  
I/M Air Quality
- III. Proposed Amendments to NAC 445.430 through 445.846 Air Quality Regs.
- IV. Proposed amendments to the Hazardous Waste Management Regulations, NAC 444.8500 to 444.9335, change the date of adoption by reference of certain Federal regulations to reflect the adoption of Federal regulatory changes effective as of July 1, 1985.

- V. Proposed amendments to the Hazardous Waste Management Regulations, NAC 444.8500 to 444.9335, changes the identification of hazardous wastes and establishes a schedule of fees for the management of hazardous wastes.

Exhibit Packet for August 28 and August 29, 1985 hearings.

1985 Transmittal of Walker River Water Quality Standards to EPA.

1985 Fiscal Note BDR 40-1784 (AB 708) 1985
